

UNLOCKING THE SHARED FOOD AND RESIDUAL WASTE CONTAINERS

REGISTER FOR THE SHARED SPACE

The food and residual waste containers are locked with an iLOQ lock and are only available to those with a *Shared space subscription*. To gain access, you must register. You can register two licenses for free by adding two contacts. If you need additional licenses, they cost 50 SEK per year.

Register on My pages at our website lavab.nu

Our website can easily be translated into English. However, once you have logged in to "My pages", translation is unfortunately no longer available.

1. Go to www.lavab.nu and log in to "My pages"
2. Click on "anläggningskontaktuppgifter", then select your holiday home facility from the drop-down list which has the *Shared space subscription*.
3. Add contact (Lägg till kontakt). Enter first name, last name and mobile number. Select the role: iLOQ lock holiday home containers (iLOQ Lås fritidshusbehållare). Save!

Please note that we will forward the phone number and name to iLOQ.

UNLOCK THE FOOD AND RESIDUAL WASTE CONTAINERS

You can unlock the food and residual waste containers with a key fob and/or your smartphone.

Key fob

If you don't have a smartphone or prefer to use an iLOQ key fob, you can buy one. It costs 1500 SEK as a deposit, which you will get back when you sell your holiday home and return the key fob to us. *Contact customer service to buy a key fob.*

How to unlock with a key fob

1. Hold your key fob against the gray iLOQ button by the lid.
2. Turn the gray iLOQ button to the right and then open the lid within 10 seconds.

Mobile phone

To unlock with your mobile phone, you must activate your key after registering it on your phone.

1. Download the iLOQ S50 app to your mobile smartphone. It is available in App Store and Google Play.
(Compatible with Apple iPhone 7 or newer and Android 9 or later.)
2. You will receive an SMS from iLOQ within a week after registering on "My pages". Click on the link in the message (within 120 hours), and the app will open. Follow the instructions and enter the one-time code received via SMS. Your key for the food and residual waste container is now activated.

Please note, if you change your phone, we need to send you a new registration link. Contact our customer service.

How to unlock with your mobile phone

Once you have registered for the shared waste station and downloaded the iLOQ app, you can easily unlock the food and the residual waste containers with your smartphone.

For Android users, make sure NFC is activated. You can check this in your phone's settings.

1. Open the iLOQ S50 app. (iOS users: Press the unlock button in the app.)
2. Hold the back of your phone (where the NFC antenna is located) against the gray iLOQ button on the lid. You will hear a beep, the screen will turn green with a white checkmark, and the lid will be unlocked.
3. Turn the gray iLOQ button to the right and open the lid within 10 seconds.
4. Close the lid. Thank you!

NFC – Antenna placement

- **Android** – NFC must be activate
- **iPhone 7 or newer** always has NFC activated.
Note: It does not work on older iPhone models because the antenna is too weak.

A link to the user manual for the iLOQ S50 app for iOS, Android, and Huawei can be found at:
